West Virginia Virtual Academy
 Goals
 FY 2024 Strategic Plan

What is a Strategic Plan?

A school's strategic plan is like a roadmap that helps the school figure out where it wants to go and how to get there. Just like when you plan a family trip, you decide on your destination and the best route to take. In a school's strategic plan, the destination is the goals and dreams the school has for its students. The plan lays out the important things the school will focus on, like improving teaching methods, creating a safe and positive environment, and helping students succeed. It's a way for the school to make sure everyone is working together to provide the best education and experiences for all students.

Goal Title	Goal Description
At West Virginia Virtual Academy, students in grades K-11 will improve their reading comprehension scores as measured by the STAR assessment by a growth goal of 10% points.	Student BOY data will be categorized as advanced, proficient, basic, and below basic. Students in the advanced and proficient categories will show growth percentile greater/equal to 35% while students in the basic category will show growth of greater/equal to 45% and below basic greater/equal to 60%. Student intervention will occur through whole class, small group, and individual instruction.
At West Virginia Virtual Academy, students in grades K-11 will improve their math proficiency as measure by the STAR assessment by a growth goal of 10% points by the end of the school year.	Student BOY data will be categorized as advanced, proficient, basic, and below basic. Students in the advanced and proficient categories will show growth percentile greater/equal to 35% while students in the basic category will show growth of greater/equal to 45% and below basic greater/equal to 60%. Student intervention will occur through whole class, small group, and individual instruction.

Goals – Improve Student Achievement in ELA and Math as measured by the STAR assessment by a growth goal of 10% points by the end of the school year.
